

ADVANCED TREATMENTS at Radiant Living

MICRONEEDLING RESURFACING FOR THE FACE

The EDS treatment is an electronic micro-needling procedure that stimulates your skin to regenerate and repair itself naturally. The result is smoother, brighter, younger and healthier looking skin.

BOTOX

Muscle relaxing injections to reduce wrinkles such as crows feet and forehead lines.

SKIN PEEL

With instant brightening effects, a series of peels will deliver visible improvements on fine lines, pigmentation and overall skin condition.

IPL REJUVENATION VEINS & BLEMISHES

Do you suffer from red face veins or nose veins, blemishes or even rosacea? Medical IPL will improve your skin and give you an even complexion, so you no longer need to hide your skin away!

TRIPOLLAR SKIN TIGHTENING

Tripollar (Radiofrequency) is a clinically proven treatment to tighten and smooth loose sagging skin, whether from weight loss, childbirth or just the ageing process. Ideal for the stomach, arms and even the face.

HIFU FAT REMOVAL

The perfect treatment to target very specific pockets of fat. HIFU uses focussed ultrasound which penetrates to the fat cells and instantly kills it, with a very intense wave. This procedure is virtually painless.

LASER FOR LEG VEINS

Are your veins ruling your wardrobe? Too embarrassed to get your legs out? We can fix that for you! We have 2 laser systems to target leg veins, and with a course of treatments we can get your legs looking years younger.

LASER FOR FUNGAL NAILS

Even if you've suffered for more than 20 years from this unsightly condition, don't worry we can help. It's most common in toenails but can also appear on finger nails. The treatments are spaced 2-4 weeks apart, and it is common to require 4-6 sessions.

PLASMA EYELID LIFT FACE & NECK LIFT

An awesome reality for those wishing to improve their skin. This pen-like device can target overhanging eyelids or loose eye bags, repair scars, remove blemishes and reverse the signs of ageing - and it's completely scalpel-free.

DERMAL FILLERS

Injectable fillers instantly improve areas of the face by restoring volume, smoothing lines, as well as creating definition. Can be used to reduce tear troughs, lift cheeks, define the jaw, straighten the nose, and redefine lips.

HIFU FACE & NECK LIFT

The world's most advanced non-surgical face lift. High Intensity Focussed Ultrasound (HIFU) can both lift and tighten loose or sagging skin with no downtime and little discomfort.

SOPRANO LASER HAIR REMOVAL

Still waxing and shaving? Soprano Ice is an award winning virtually painless laser. It's the world's most advanced treatment which kills off hair faster and more comfortably than ever before.

IPL & LASER FOR SUN & AGE SPOTS

Fed up with unsightly blemishes and pigmentation on your face, hands or body? Don't worry our laser treatments are safe, effective and will transform your skin, taking years off you!

3D LIPO FAT FREEZE

An effective and proven alternative to surgical liposuction. Reduce your pocket of fat by 20-40% in just 1 treatment.

3D DERMATOLOGY CELLULITE REDUCTION

Fed up with lumpy bumpy skin and cellulite? We can significantly improve the appearance of your legs and bottom with 3D Dermatology treatments. Plus we are able to combine 3D Lipo treatments for maximum results. Come for a free consultation to find out more.

BODY BALLANCER FLUID RETENTION & INCH LOSS

Do suffer from fluid retention and swelling in the stomach, legs or feet? Body Ballancer compression therapy is a proven medical treatment to reduce fluid and bloating, as well as improve the skin. Perfect to aid weight loss, improve digestion and flush your lymphatic system. Suitable in pregnancy and for lymphoedema patients.
